THE DIVISION OF WILDLIFE RESOURCES MANAGES AND MAINTAINS NUMEROUS WILDLIFE AND WATERFOWL MANAGEMENT AREAS THROUGHOUT THE STATE. THESE AREAS ARE CLOSED DURING CERTAIN TIMES OF THE YEAR TO PROTECT WILDLIFE. BEFORE VISITING A WMA, PLEASE CALL THE REGIONAL WILDLIFE RESOURCES OFFICE IN YOUR AREA FOR CLOSURE DATES.

Responsible OHV use

The Utah Division of Wildlife Resources encourages responsible OHV use. While most OHV users are responsible, misuse results in disturbance to wildlife, damage to wildlife habitat, and personal injury.

Please be aware that unlawful OHV use is a criminal offense. Utah Division of Wildlife Resources' Conservation Officers and State Parks & Recreation's Rangers regularly enforce all OHV regulations, including:

-  riding an OHV in closed or restricted areas and roadways;
-  harassment of wildlife;
-  helmet-law regulations; and
-  OHV operator age restriction regulations.

Many designated roads and trails on public lands are available to responsible OHV users. You may obtain a copy of a "Travel Opportunity Guide" from the appropriate federal land management agencies (USDA Forest Service or Bureau of Land Management). Please refer to the "Travel Opportunity Guide" for locations where you can ride. Under Utah state law, all public lands are closed to OHV use unless designated open by map, sign, or description. The closures protect sensitive natural resources such as watersheds and valued wildlife habitats, and ensure public safety.

The Utah Division of Wildlife Resources owns and manages several hundred thousand acres of Wildlife Management Areas across the state for wildlife purposes. Controlled OHV use on these lands protects wildlife and their habitats.

Utah law also requires youth, ages 8 to 16, to receive OHV certification before operating an OHV on open public-land roads and trails. Certification classes teach safety and instill ethics in young OHV users. Remember, to be a responsible rider also means receiving proper education.

Please call
1-800-OHV-RIDE

to enroll in the OHV safety certification classes.

Protect your privilege, stay on designated roads and trails. Have fun by taking time out to hunt, fish, photograph or watch wildlife.

Be a responsible OHV user so you can help ensure a wildlife heritage for future generations.

Poaching is a crime

Simply defined "poaching" is any illegal taking of fish, game or nongame wildlife. It is not a crime committed against the Division of Wildlife Resources, but a crime affecting all citizens of the State of Utah. Poachers steal from consumptive and nonconsumptive users alike. Present and future generations of law abiding outdoorsmen are the victims. Poachers erode public support of hunting and fishing. They threaten the existence of our sport. In short, poaching is a serious crime, and poachers are nothing more than thieves.

Take a stand

Defend wildlife and the right of future generations to enjoy it.

Get Involved With Utah Wildlife

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who represents business interests
- one member who is a locally appointed public official
- one member from the USDA Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources. Members may serve up to two, two-year terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate all

perspectives and come to the decision that they feel is best for all of Utah's wildlife and its citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommendations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division web site:

www.nr.state.ut.us/dwr/dwr.htm (Public Meetings)

Public input is the cornerstone to successful decision-making for the Division through the RAC and Board process.
